 4. Directors Ohma and Lito Viray, start another scholar to replace former scholar Ariel Antonio?
- **AYOS Initiative** (Adopt Your Own Scholar) - There was a recent inquiry if we have developed a solicitation letter to encourage members to adopt their own scholar at CLSU. To date no letter has been developed. However, there was a plan to develop a flyer for this purpose.

CLSUIAAI General Scholarship Program (GSP) in Partnership with CLSUAAI

- Four scholars were seniors during the SY22-23. Three were confirmed graduates, while we are still waiting the confirmation on the 4th student. For the confirmed graduates, all three received academic honors. These students are as follows:

1. Mikkah Baytic, BS Psychology, **magna cum laude**.
 2. Jemimah Olo, senior, BS Civil Engineering, **cum laude**.
 3. Angielyn Pesigan, senior, BS Agriculture, still waiting for confirmation.
 4. Joel Collado, BS Psychology, **magna cum laude**.
- Three scholars completed their junior year and will be incoming seniors during the SY 23-24. Still waiting for their COGs to be submitted. Assuming all requirements are met, the GSP scholars will continue receiving their grants during the incoming SY23-24. The continuing scholars are as follows:
 1. Carmelo A. Carbonel, 4th Yr, BS Information Technology
 2. Redelyn Y. Gaspar, 4th Yr, BS Technology and Livelihood Education
 3. Renelyn M. Flores, 4th Yr, BS Development Communication

Exit Survey Request to CLSUIAA Scholars Who Recently Graduated

- Planning to develop an Exit Survey Form to be completed by scholars who recently graduated
- Key information to obtain would be their future contact information after leaving CLSU and future career plans.

Inclusion of CLSUIAA in CLSU's Commencement Exercises Program Book

- In past Commencement Program books, the CLSUIAA was never identified as donor of Scholarships offered as CLSU. This concern was communicated with our Scholarship Coordinators at CLSU last year.
- This year on the 71st Commencement Exercises Program, CLSUIAA, Inc. was appropriately listed as sponsor of scholars under the category of Government and Private Scholarships.

Special Educational Projects

- **Student Research Project** -Jemimah Olo recently submitted a report of her student research project entitled "Pulverized Ceramic Riles Residue as Partial Substitution to Fine Aggregates in Brick Fabrication: A Sustainable Management of Construction Waste Material." This project was completed with two other students. Jemimah was awarded \$125 per her requests for financial assistance under our Special Education Project/Program. Funding came from donations from interested CLSUIAA members.
- **Request for financial assistance to take a Review Class for the upcoming Civil Engineering Board Exam** was recently received from Jemimah Olo, CLSUIAA's former GSP scholar. Sent an email to the members of the SER Committee concerning this request but never got any response. Need to discuss this in this EC Meeting.

ACTIONS NEEDED:

- Discuss the request of Jemimah Olo for financial assistance in taking review class for the Civil Engineering Board Exam and decide to grant or not to grant the request.
- Discuss the approved policy of giving financial gift/incentive to graduating scholars who were given scholastic honors by the University (i.e. cum laude) and make decision.
- Recommend that we increase our GSP grant from \$400 to \$450 per year. We generally adjust our grant due to inflation, etc.
- Recommend that we provide scholarship grants to 4 new scholars to start in SY23-24 replacing the 4 scholars who recently graduated.
